Letlhogonolo Rakgantsho Junior Software Developer

Sandton, Gauteng | +27695882009 | lrakgantsho22@gmail.com | LinkedIn Profile | Github profile

Professional Summary

Junior Software Developer with nearly one year of hands-on experience developing and supporting **enterprise business applications** used by internal teams and external business users. Strong foundation in **C#/.NET**, **relational databases, debugging, and unit testing** within agile teams. Academic exposure to **Java and object-oriented programming**, with proven ability to quickly adapt to new languages and tools. Motivated developer eager to grow within a collaborative, production-focused environment.

Technical Skills

Backend: C# (.NET / ASP.NET Core), Java (academic knowledge, OOP fundamentals)
Frontend: HTML, CSS, JavaScript, React, Vue.js, REST APIs, JSON
Databases: SQL Server, PostgreSQL, MySQL, SQL queries, joins, stored procedures, optimisation
Development Practices: Debugging & troubleshooting, Unit testing, Agile/Scrum, SDLC, Code reviews & documentation
Tools & Platforms: Azure DevOps, Git, CI/CD pipelines, Swagger, Postman

Professional Experience

Junior Full Stack Developer (Graduate Internship), Tourvest Travel Services (TravelIT), *Johannesburg, Gauteng*
April 2025 - Present

- Supported the design, development, and maintenance of enterprise platforms supporting internal operations and external business clients.
- Developed and maintained backend components and APIs using C# and ASP.NET Core, following established coding standards and best practices.
- Wrote, debugged, and optimized SQL Server queries and stored procedures to improve system performance and reliability.
- Investigated and resolved production and non-production issues under guidance of senior engineers, contributing to stable system operation.
- Participated in code reviews, unit testing, and sprint-based delivery using Azure DevOps.
- Collaborated with cross-functional stakeholders to understand requirements and deliver business-aligned solutions.

Projects

GitHub_Commit_Explorer - View Live App | GitHub

- Built a web application consuming a third-party REST API, handling pagination, error states, and data transformation.
- Implemented unit tests to validate application logic and ensure predictable behaviour.
- **Tech**: Vue.js + TypeScript + Pinia + Vitest

Education

BSc in IT in Information and Knowledge Systems, University of Pretoria, Pretoria, Gauteng
